EFFECTS OF IMPROVED ALKALINE TREATMENT AND ITS COMBINATION ON MORDENITE

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Effects on Morphology and Catalytic Activity of Morde nite | Some studies have reported that alkaline treatment were effective in introducing mesoporosity especially in high-silicon zeolites, most favorably in dilute NaOH solution. This study was to optimize the alkaline treatment of mordenites and asses the feasibility of its combination to improve mordenite properties in term of high mesopores and high Si/Al ratio. Optimiz ation of alkaline treatment of high Al morden ites was attained and...
