

High-Order Discontinuous Galerkin Methods for the Maxwell Equations (Paperback)

Filesize: 7.77 MB

Reviews

Excellent electronic book and helpful one. Better than never, though i am quite late in start reading this one. You wont truly feel monotony at whenever you want of your time (that's what catalogues are for relating to when you question me).
(Mabelle Dach III)

HIGH-ORDER DISCONTINUOUS GALERKIN METHODS FOR THE MAXWELL EQUATIONS (PAPERBACK)

Univ Europeenne, United States, 2014. Paperback. Condition: New. Language: French . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. This work is concerned with the development of a high-order discontinuous Galerkin time-domain (DGTD) method for solving Maxwell s equations on non-conforming simplicial meshes. First, we present a DGTD method based on high-order nodal basis functions for the approximation of the electromagnetic field within a simplex, a centered scheme for the calculation of the numerical flux at an interface between neighbouring elements, and a second-order leap-frog time integration scheme. Next, to reduce the computational costs of the method, we propose a hp-like DGTD method which combines local h-refinement and p-enrichment. Then, we report on a detailed numerical evaluation of the DGTD methods using several propagation problems. Finally, in order to improve the accuracy and rate of convergence of the DGTD methods previously studied, we study a family of high-order explicit leap-frog time schemes. These time schemes ensure the stability under some CFL-like condition. We also establish rigorously the convergence of the semi-discrete approximation to Maxwell s equations and we provide bounds on the global divergence error.
