

Mysterious Origins of Hybrid Man: Crossbreeding and the Unexpected Family Tree of Humanity (Paperback)

By Susan B. Martinez

Inner Traditions Bear and Company, United States, 2013. Paperback. Condition: New. Original. Language: English . Brand New Book. Did we evolve from apes, or are we all descendants of Adam and Eve? Why is the missing link still missing? Is the dumb luck of natural selection valid? Piecing together the protohistory of humanity through anthropology, genetics, paleolinguistics, and indigenous traditions, Susan B. Martinez offers an entirely original alternative to Darwin's evolution: Modern humanity did not evolve but is a mosaic of mixed ancestry, the result of eons of crossbreeding and retro-breeding among different groups, including Cro-Magnon, Neanderthal, hobbits, giants, and Africa's Lucy and Zinj. Martinez shows that there were multiple Gardens of Eden and how each continent had its own blend of races prior to the Great Flood, which caused the diaspora that brought a renaissance of culture to every division of the Earth.

Reviews

It is one of my personal favorite publications. Indeed, it is actually perfect, still an amazing and interesting literature. It has been printed in an exceptionally easy way which is merely soon after I finished reading this book where it really altered me, changing the way I believe.

The best PDF I ever studied. We have gone through and so I am confident that I will go back to study again once again down the road. You are going to like the way the blogger composed this PDF.
