Createspace, United States, 2010. Paperback. Book Condition: New. 214 x 149 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.HALF THE TIME OR LESS! Arithmetic to Algebra normally takes 8 to 10 years and most students still don't understand it. Action Algebra solves that problem. Standard curriculums are mainly memory based drills or they teach and reteach a year later, meanwhile the student has forgotten. Action Algebra with Mastery-Review cuts the wasted duplication out of the standard curriculums and replaces it with a simple system based on ten practical Actions that can be understood, which is the key to motivation and achievement. Did you know that most 8 year curriculums have only about 2 years of unique content? Imagine the success your student(s) can enjoy if they mastered that content in 2 years! The Action Algebra system will not only show you the why's of math, but also how to implement it in your classroom or homeschool. It covers all those dreaded topics like negative numbers, fractions, order of operations, exponents, variables, roots, and polynomials using the same ten Actions. It shows you how to solve almost any equation using just 6 steps or less with our Action-based method found nowhere else! Action Algebra has been developed over the last 20 years by a professional high school math teacher who faced the same frustrations you face. Now the system is written down and supported with resources like worksheets and videos to help you prepare students for standardized tests at all levels, graduation requirements, college entrance exams, and life. If you are one of the many parents and teachers who dread math because you don't understand it, and get confused with all the steps, then this book is for you. Never be afraid again when...
