## BOTANY FOR HIGH SCHOOLS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Botany for High Schools Several chapters are devoted to a study of the peculiar and unusual forms of nutrition by certain plants that have become closely associated in this respect with other organisms, and by the fungi and bacteria, which, lacking chlorophyll, must obtain certain food by other means than that employed by the green plants. In this connection special attention is given to some of the more important micro-organisms which are beneficial to man because of certain products of their activity, or which are harmful as causal agents in disease. One chapter is devoted to the study of the more useful plants of the farm, orchard and garden or of those employed in industrial operations. Chapters are also devoted to the principles of plant development and plant breeding, subjects which are of absorbing interest to all and of special practical importance to the farmer and horticulturist. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
