The system we have been using for educational standards and guidelines is no longer applicable for today s times. It served most people well in the past, but it is time for a change. Our whole system of education needs to be restructured from bottom to top. We already have entities in the public school system who are bored and ready for more advanced material than they are offered. The generation gap has jumped very rapidly; the younger generation is much more evolved and our system has not kept pace with the evolvement of humanity. The goal of the Chrysalis Schools is the opening of the creative channel in children at a young age. I have designed a totally new school system to be used from birth through college based on The Science of Music. There will actually be three main divisions with large modules. Each one will focus on a different aspect of the students. The Swimming Pool/Skating Rink module will serve the physical body. The Gymnasium module will serve the mental body and the Auditorium module will serve the emotional body. There will be connecting modules between these that will serve the spiritual body. Physical Body Goal - Stretching the Brain, accomplished with studies in BodyThought(R); Emotional Body Goal - Self-Esteem of Student, accomplished by studies in BlendedThought(R); Mental Body Goal - Independence of Student, accomplished with AnalogicThought(R); Spiritual Body Goal - Opening to the Power of the Mind, accomplished with LayeredThought(R). This new educational system will very subtly lead people into thinking for themselves and not just accepting thoughts that have been passed down to them...
