Excerpt from Persons Employed and Range of Employment in 1898: From the Ninth Biennial Report of the Bureau of Labor and Industrial Statistic of Wisconsin, Pp; 709 to 838 Inclusive The reasons for omitting the 221 reports which relate to employment and earnings only, from part V., hardly need explanation The main purpose there was to show. The condition of business in the manufacturing industries in this state. For this purpose the complete returns were of much greater value than those less complete. Since they were more valuable it is also obvious that they would be more useful alone than when mingled with those of less value. When presented alone they also offer better and much more convenient opportunities for comparisons, as between the different elements, than in any other way. For these and other reasons it was thought best to present the two classes of returns for 1898 - 99 separately.
