Reviews

Extensive information! Its this type of excellent study. I have read and i am sure that i will gonna go through yet again once more down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2009. Paperback. Condition: New. 2nd ed.. Language: English . Brand New Book. Written in a lively and engaging style, by a medical author and teacher of great renown, this book provides a fascinating and informative introduction to the development of surgery through the ages. It illustrates some of the key advances in surgery from primitive techniques such as trepanning, through some of the gruesome but occasionally successful methods employed by the ancient civilisations, the increasingly sophisticated techniques of the Greeks and Romans, the advances of the Dark Ages and the Renaissance and on to the early pioneers of anaesthesia and antisepsis such as Morton, Lister and Pasteur. Heavily illustrated in colour, The Cambridge Illustrated History of Surgery is the only serious choice for a reader wanting a lively and informative single-volume introduction to surgical history.
