Helion & Company. Paperback. Book Condition: new. BRAND NEW, Rebuilding Britain: The Aftermath of the Second World War, David Rogers, Undoubtedly, the Second World War was one of the darkest periods of history. With untold losses and countless with physical and mental scars, there was little to celebrate except the relief of closure. Yet what happened once the noise of the shelling subsided and the smoke dissipated? Certainly, late 1940s peacetime Britain was far from easy. Unemployment, power cuts, rationing, national service etc. were difficult to deal with, especially taking into account the physical nature of even some of the most basic tasks. As thoughts turned to recovery of such issues as the economy and unemployment, there was still a need to maintain the Services to such a level that they could provide a peacetime presence in the Rhine area, for example. Of course there were individuals conscripted during the war who were needed for some of the physical rebuilding programmes, the release of whom required national service from the next generation of young men and women. The coal industry needed its men back in the mines, for example. The call up to national service and demobilisation led to a steady stream of young men and women needing either training or an occupation in civvy street. This was at a time when Service numbers needed to be reduced! A difficult balancing act to say the least. The longer term issues of the day are still casting shadows - even now in the 21st century. For example, some of the concepts in the Education Act of 1944 are still used today and nationalisation of our transport infrastructure continues to be debated. Not forgetting of course that the Welfare State and the National Health Service were founded in the immediate post war years...
