

Speech in Action: Interactive Activities Combining Speech Language Pathology and Adaptive Physical Education

Filesize: 9.47 MB

Reviews

This publication is really gripping and exciting. It really is basic but unexpected situations in the 50 % in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Prof. Salvador Lynch)

SPEECH IN ACTION: INTERACTIVE ACTIVITIES COMBINING SPEECH LANGUAGE PATHOLOGY AND ADAPTIVE PHYSICAL EDUCATION

Jessica Kingsley Publishers. Paperback. Book Condition: New. Paperback. 158 pages. Dimensions: 10.9in. x 8.5in. x 0.5in. Children, particularly those on the autism spectrum, are able to acquire communication skills much more easily when their learning incorporates movement. Even very simple actions such as tapping and hand clapping can have a noticeable impact on their speech and language development. Speech in Action is an innovative approach to learning that combines simple techniques from speech and language pathology with physical exercises that have been carefully designed to meet the individual child's particular needs and abilities. This practical workbook describes the approach, and how it works, and contains 90 fully-photocopiable lesson plans packed with fun and creative ideas for getting both mouth and body moving. Suitable for use either at school or at home, the activities can be dipped into in any order, and are organised by level of ability, with something for everyone. The final chapter contains the success stories of children the authors have used the activities with, demonstrating how the approach can be used in practice. This will be a useful resource for teachers, occupational therapists, and other professionals who work with children with delayed communication skills, as well as parents and carers who would like to support their child's speech and language development at home. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
