

The Unrevealed Secrets of Hacking & Cracking - HACK BEFORE YOU GET CRACKED

By PRATEEK SHUKLA & NAVNEET MEHRA

Unicorn Books, 2012. Paperback. Book Condition: New. This book serves as a complete reference for information security including IT security, data security, network security, internet security, penetration testing, cryptography and laws governing the industry * The book describes the tools and penetration testing methodologies used by ethical hackers, and provides a discussion of what and who an ethical hacker is and what role he plays in protecting corporate and government data from cyber attacks * It also offers an understanding of how to effectively protect data and computer networks * Finally, it presents the subject in a simplified manner so that even a beginner dealing in a security environment understands and implements information security at personal and corporate levels.

Reviews

Extensive information! Its this type of excellent study. I have read and i am sure that i will gonna go through yet again once more down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Aliyah Mayer**

This is actually the very best publication i have read through till now. It is definitely simplistic but unexpected situations in the 50 % in the pdf. You can expect to like just how the article writer compose this pdf.
