Ferdinand / Elefant Tank Destroyer, Detail in Action.

By Doyle, David.

Squadron Signal Publications, 2011. Condition: New. 80 pages, 110 full-color photos of the only surviving examples of each type illustrate the nuances of the construction and subsequent wartime modification of these giant tank killers. Also features 16 detailed line drawings as well as 15 masterful color profiles. In an effort to turn the proverbial lemon, in the form of an unsuccessful Tiger design, into lemonade, Porsche engineers at the behest of the German army, converted the failed chassis into one of the largest and most potent tank destroyer designs of World War II. Initially fielded as the Ferdinand, the vehicles were further modified, and ultimately given a new - and apt - name: 'Elefant.' This new volume explores not only the combat history of both the Ferdinand and Elefant, but also chronicles the development of the ill-fated Porsche Tiger design through 88 period black-and-white photos. Brand new 11 x 8 paperback. SS39001 sale.

Reviews

This book will be worth getting. Better then never, though i am quite late in start reading this one. Its been written in an extremely basic way which is only right after i finished reading this book through which actually altered me, alter the way i believe.

-- **Mr. Enrico Lesch**

Good electronic book and useful one. It usually does not expense a lot of. It is extremely difficult to leave it before concluding, once you begin to read the book.
