Prince Haruko only wants to be left alone to build steam engines and mechanical devices, but his sister, the witch Tanoshi, has a problem. After turning people into frogs and single-handedly defeating an army, everyone fears and avoids her. But, as she approaches marriageable age, Haruko realizes she needs a husband, or face death from the Moon Goddess curse. Their lives become even more complicated after Haruko is ordered to the capitol to marry a noble's daughter who thinks anything mechanical is stupid. There is one answer, but can kids raised in a steampunk world survive in modern-day America? And can Tanoshi live without the power she'd known all her life?.
