

Who Gets Funds from China's Capital Market?

Filesize: 6 MB

Reviews

This book is great. It absolutely was written quite properly and beneficial. It has been written in an extremely basic way and it is merely after I finished reading through this ebook in which it basically changed me, affecting the way I really believe.

Condition: New. Publisher/Verlag: Springer, Berlin | A Micro View of China's Economy via Case Studies on Listed Chinese SMEs | This book offers a detailed analysis of business models used by Chinese small and medium sized enterprises (SMEs) that have succeeded in a highly competitive market. It covers a wide spectrum of industries, from modern agriculture to TV series production. | The subject of this book is an analysis of the business models developed or adopted by Chinese small and medium sized enterprises (SMEs), specifically those that are successfully listed on China's capital market; in other words, it is a dissection of those Chinese business models that have "worked." In China, there are over 10 million companies that are registered with China's State Industrial and Commercial Administration and over 40 million unregistered businesses. Among them, only about 1,000 companies became successfully listed on China's capital market and were able to obtain public funds from equity investors. This book takes a look at who these "lucky ones" were and what business models led to their success in a highly competitive Chinese market, investigations that will certainly be of interest to both Chinese and international readerships. In addition, this book provides a nuanced and micro view of the Chinese economy. As China's economy increasingly receives attention worldwide, the amount of research and publications on China's economy is also growing exponentially. However, the majority of these studies only focus on the macro level of the Chinese economy and aggregate variables such as GDP, growth rate, inflation, etc., while little research has been done at a micro and company level to analyze the Chinese economy. Thus, this book's focus on the case studies of representative firms may help fill some gaps in the study of business and the economy in China. Furthermore, this book hopes to...
