## ANY GIVEN DAY: TAKING THE GAMBLE OUT OF GAMBLING

Outskirts Press, United States, 2009. Paperback. Book Condition: New. 198 x 127 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The object of this book, Any Given Day is to take the gamble out of sports gambling. The statistical probability system explained in this book is an objective system for both professional football and basketball. There is no guess work as the system is based on simple math and statistics. The system was developed in the early 1950 s while working with my father who taught physics and calculus in college. Coming together, a mining and civil engineer and a teacher, coach and athletic director, the system has been refined and brought up to date for todays sports. February 6, 1005 which was Super Bowl XXXIX the exact score was predicted by the system, New England 24 and Philadelphia 21. Because of this, I was called gifted in Las Vegas. There are many games listed in the book that pick the exact score. How about week 10 played November 10, 2002 between Atlanta and Pittsburg. The system picked the game to be a tie. I called the game at 24 Atlanta and 24 Pittsburg. That became the final score after overtime. No game had ended in a tie for many years, and until this year, 2008, there had been no other. This book is much more than just the winning football and basketball system as it covers sports gaming rules, sports talk, the type of wagers, and which to use and which to stay away from using. This is a real love novel because with one \$10.00 two team parlay bet you will almost double the price you paid for this book. The chapter, Beyond Stupidity, is enlightening as it gives the reader an inside look at...
