Excerpt from The History, Properties, Source of the Ingredients, Mode of Application, and Uses of Commercial Fertilizers While a knowledge of all these sciences is necessary to a correct understanding of the principles Of agriculture, yet chemical science has been especially active in the interests of the farmer. There is hardly an operation performed on the farm which has not a direct bearing upon chemical science, and the study and explanation of these various operations may well claim the attention of the agriculturist. In the develop ment and growth of the commercial fertilizer trade during the last half century, the importance of chemistry in agriculture has been especially marked, and plant food is now prepared With the same scientific care as that intended for animals or man.
