Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Interferometer Measurements of the Longer Wavelengths in the Iron Arc Spectrum Column 2 contains the new wave-length values obtained by direct comparison with the primary standard, and in the two succeeding columns the number of observations and the probable error of the mean value are given for each line. A indicates a probable error less than A, B, to A, and C means that the determination is poor. Columns 5 and 6 present the values and probable errors published by Burns and in the next column the values obtained by Eversheim are repeated. In the last two columns are presented, for purposes of comparison with preceding values, the present values of the international secondary standards and the interpolated values adopted by the International Astronomical Union.⁹ In order to make comparisons with a considerable number of the accepted secondary standards we begin our table with 5434 A, thus including 25 standards, 4 of which belong to group (i.
