Willem de Kooning was a pioneering figure among Abstract Expressionists, one of the most influential champions of the dynamic, process-driven painting that brought New York to the centre of the art world in the 1950s. This latest volume in The MoMA Artist Series guides readers through ten of de Kooning's most memorable achievements, chosen from The Museum of Modern Arts substantial collection of his work, including paintings and drawings in his Woman series which famously introduced a savage figuration into Abstract Expressionism and other important works produced throughout his career.
