Executives are bombarded with bestselling ideas and best practices for achieving competitive advantage, but many of these ideas and practices contradict each other. Should you aim to be big or fast? Should you create a blue ocean, be adaptive, play to win or forget about a sustainable competitive advantage altogether? In a business environment that is changing faster and becoming more uncertain and complex almost by the day, it's never been more important or more difficult to choose the right approach to strategy. Addressing your most pressing strategic challenges, you'll be able to answer questions such as: What replaces planning when the annual cycle is obsolete? How do we manage the inherent contradictions in formulating and executing different strategies across...
