*This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.We have hundreds of religions but the question is how many believers do we have? Many people attend Church, Synagogue, Mosque or other religious worship houses. Are these people believers, or disbelievers who are scared of death who are coming to someone to tell them that there is something on other side? We are in the twenty first century. We are educated people, skill workers, engineers, miners, doctors, machinists, factory workers, accountants, office workers; intelligent people! How can we believe that Jesus walked on water and Moses under or through water? These stories are more than two thousands years old and not so appealing to us! We pretend that we believe! Does anyone stand up and scream I have a question! ? Of course not! It is impolite, it is unethical and even dangerous in some places. So, who are we? Why we are here? Where do we come from? Where are we before we are born and how are we transformed into the physical world? Where are we going after? What is our task here on earth?.
