MODELING AND CONTROL OF THIN PLATE STRUCTURES BY PIEZOELECTRIC ACTUATORS AND SENSORS

Trauner Verlag Sep 2011, 2011. Buch. Book Condition: Neu. 24x17x cm. Neuware - The present thesis is concerned with the tracking of the displacement field of thin plate structures using piezoelectric transducers. A first example demonstrates the possibilities and limitations of beam theory. Hence, in the main part of the thesis an analytical model based on Kirchhoff's plate theory is derived in order to take into account the dependency of the transverse displacement on the lateral coordinate due to the...
