*Thorough manual for pdf lovers. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Pandora has been under the care of The Sapien since she was a young child. This is the life that she knows. When an army of men from The Order led by Aiden Ripley break into the prison in which she is kept, she is forced to make the decision to stay or leave. What The Order does not know is that Pandora s captivity is for the good of all men. Once her abilities have been unleashed, terror and death will rain down on everyone around her. Convinced that she can control her abilities and live as normal as is possible within the care of The Order, Pandora leaves her captors. Pandora comes to be known as simply Dora to those she befriends. She forms a fast bond with those around her while hiding her capabilities for fear of dismissal. However, when the lives of those she loves are endangered by the very same men she had escaped she is forced to make one of the hardest choices of her life. All decisions are based on possibilities and chances. Whether the results are joyful or dire rests in the hands of a young woman who knows nothing save for the life lived as a captive with clutches for the control to reign herself and her abilities. Chance knows not of the divine, nor the strands of fate. It is but a ripple in our precarious existence, easily overseen, seldom noticed.
