Aviation Supplies Academics Inc, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. After passing the FAA s Fundamentals of Instructing (FOI) knowledge test required of all instructors, the true challenge begins--applying that knowledge in the real world of teaching flight. Follow along as Arlynn McMahon lifts the FOI principles from the classroom and brings them into the cockpit. Her forty-four stories demonstrate the FOI principles in flight and offer practical strategies for dealing with both common and unexpected situations--all with wisdom, grace, and humor. McMahon s companion to the Aviation Instructor s Handbook (FAA-H-8083-9) uses memorable parables and provides sage advice to illustrate FOI principles at work with real clients in real-life situations. Psychology, human factors, professionalism, effective communication, customer service, and ethics are evident in her teaching style with the people she s interacted with over decades in the business of flight training. McMahon s experiences illustrate what works--and why--for instructors and their students. Through artful storytelling, McMahon shows how a successful instructor is sometimes a psychologist, other times a detective, and always a gatekeeper enforcing rules and cultivating the behaviors required to be a responsible aviation citizen. Delightful, full of wisdom--and written with humor, kindness, and dignity for her students--this is an invaluable guide for all flight and ground instructors who will benefit from using McMahon s insights with their own clients.
