DOWNLOAD

University Press of America, United States, 1999. Paperback. Condition: New. Language: English . Brand New Book. Introduction to the History of African Civilization explores the major issues dominating African Civilization from the earliest recorded period to the eve of colonial conquest of the continent. C. Magbaily Fyle begins with a discussion of the myths and prejudices underlying most analyses of African issues, and moves into a discussion of the origin of humanity; the similarities between the classical Nile valley civilizations of Egypt, Nubia, Kush, and Axum; and the spread of Islam through African societies. He portrays the systems of precolonial government and society, including the role of women in governance, as well as traditional trade and agricultural patterns. Fyle provides a new perspective on the Islamic Jihads, shifting focus from Sokoto and Macina to the Senegambia and the Upper Guinea region, and a revised interpretation of the Atlantic slave trade, which includes the importance of African objects to this process. He also discusses important cultural features such as the traditional African food, architecture, and typical structures of towns.
