## New Cultural Revolution: Economic Life and Urban Change in China (Paperback)

By Scott Lash, Michael Keith, Jakob Arnoldi

Taylor Francis Ltd, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book. Dominant theorists of globalization take on the assumptions of a Washington Consensus which presumes the centrality of neo-liberal American individualism. For them America s globalization is at stake. Scott Lash and his colleagues argue that there is a new global driving force: a new logic that is Global China. Here Washington neo-liberal individualism is displaced by the collective relationality of a Beijing Consensus . This relationality harks back to Taoism and Confucianism yet is a motor of Chinese global hypermodernity. This book analyzes China as a risk culture , embracing the boundless opportunity and adventure of Beijing s Olympic architecture, Shenzhen investment bank young traders, Shanghai property developers and art markets. It examines the risk-sharing of intergenerational family mortgages, wage-pooling microfinance and regimes of collective saving. It scrutinizes the ever-present shadow of the risk-averse (yet uncertainty-creating) state. `Global China` is a must read for social scientists, policy makers and investors.
