It has already become reasonably certain that freedom in itself is pleasant, and that restraint biologically speaking--that is, naturally, in naive individuals--is inherently disagreeable, whether from without or from within. I would emphasize the provisional clause in this part of my thesis, biologically speaking--that is, naturally, in the naive individual, for we shall suggest below that it loses this unpleasantness as the person becomes a psychologic personality. As the wise George Eliot says in Felix Holt, There is a sort of subjection which is the peculiar heritage of largeness and of love; and strength is often only another name for willing bondage to irremediable woes. We all know that freedom as such is pleasant, and a seven-foot shelf of books, or one even longer, might be readily written, given time,...
