THE INVESTIGATION OF MIND IN ANIMALS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Excerpt from The Investigation of Mind in Animals Animals has rendered a certain amount of revision necessary. To incorporate the results of the numerous papers bearing on the subject of Animal Behaviour which have been published since 1914. Would have meant adding greatly to the size of the book, and as the majority of these contributions revolve round difficult questions of technique, or are somewhat controversial in nature, discussion of them would not have been in place in a short introduction to the subject. One section, however, deals with entirely new matter. The final section of the first edition, which gave an account of the famous talking horses, I have decided to omit from the present edition, and to replace it by a discussion of the Multiple Choice method of Yerkes and the method of studying perseverance reactions devised by van Hamilton. As yet these methods have not been widely applied, but it is to be anticipated that they will be considerably developed and extended in the future. For the rest the alterations in the text are chiefly verbal in character. Certain additions have been made to the bibliography. I desire to express my indebtedness to my husband, Mr F. C. Bartlett, for his help in preparing this new edition for the press. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
