paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date :2012-10-10 Publisher: China Electric Power Press title: national electricity vocational education planning materials: electricity system is the basis of original price: 32 yuan: Huangyuan Chen Press: China Electric Power Press Publication Date: 2012 - 10-10 ISBN: 9787512330924 Words: Page: Revision: 1 Binding: Folio: 16 commodity identification: 20A-10 Editor's Choice power system as the basis of an electrical engineering courses about and study the basic component of the power system electrical energy (electricity) production. application process. the basic characteristics of the electric power system operation and associated calculations and analysis of content. Overall divided into basic parts. and steady-state analysis. transient analysis of three aspects. The Huangyuan Chen power system infrastructure is divided into ten chapters. than about the basics of the power system. the increase in the steady-state analysis based on the static stability and system oscillation Overview and UHV grid outlook and high-voltage direct current transmission introduce chapters. Summary No Section II of the electricity system of energy and power systems (1) energy of Contents Preface Chapter Overview Section IV power system operation in Section III power system load characteristics and requirements in section V. the voltage level of the power system and the Wiring the fourth quarter of the distribution network of the basic wiring of the power system of the provisions of Chapter II Section 1 wiring of the power grid. sect main electrical wiring in the third quarter of the power plants and substations user plant (station) run The fifth Chapter characteristics of the major components of the the section power system neutral point operation mode parameters. operating parameters and mathematical model of the first section generator steady state characteristic parameters and mathematical models...
