Palgrave Macmillan, UK, 2012. Hardcover. Condition: New. First Edition. 222 pages. Available Now. Book Description: Organized crime in Mexico has been responsible for a worrying increase in violence in that country since Felipe Calderon assumed the presidency in 2006. The country's main criminal gangs are now a real challenge to the Mexican state. Government policies aimed at combating that threat have not been very successful to date. While it is certainly possible to exaggerate the threat posed by organized crime to the Mexican state, the real problems posed are serious enough. This book considers the issue from a variety of viewpoints. The essential argument is that the organized crime is best combated by institutional reforms directed at strengthening the rule of law and winning over public opinion rather than by a heavy reliance on armed force. Some such reforms have indeed taken place in Mexico, and are discussed in the book. : Review: "Editors George Philip and Susana Berruecos have overseen a volume with a remarkably diverse range of commentary on the current state of the Mexican government's increasingly military driven conflict with drug trafficking organizations (DTOs)." - Criminal Law and Criminal Justice Books: "This book provides a balanced view of the current situation in Mexico. The editors and authors did an exceptional job and the readers will not be disappointed. Far from the fuss, this book takes a broad look at a pressing topic in Mexico's agenda: public and national security. It goes beyond mechanistic explanations to explore social attitudes, political decisions, and institutional weakness, as well as their consequences in reshaping the new context. No one seeking to understand the Mexican challenge can afford to ignore this inspiring and insightful book." - Leonardo Curzio, CISAN UNAM: About the Author: GEORGE PHILIP is a Professor of Comparative and Latin...
