Animals Upside Down: A Pull, Pop, Lift & Learn Book!

By Jenkins, Steve. Page, Robin.

Houghton Mifflin. 1 Pop-up(s), 2013. hard. Book Condition: New. With the amazing cut-paper artwork of Caldecott Honoree Steve Jenkins animated with pull tabs, movable flaps, sliding doors, pop-ups, and other interactive elements this book for readers up to 6 reveals how, for many animals, flipping over can be a matter of survival. Among the 26 animals featured here are the striped skunk (who can do a headstand to spray its enemies), the harvest mouse (who can hang from its tail while reaching for grains), and the weaverbird, whose nest has a bottom exit tunnel to keep out predators. A fruit bat spreads its wings, a flamingo turns its head over to feed, and a hog-nosed snake doesn't just flip over and play dead, it can even bleed a little."The animals are all rendered with typically amazing accuracy from pieces of cut and torn paper. A treat for eye and mind alike, besides being suitable for displays and durable enough to stand up to plenty of hands-on use." Kirkus Reviews (starred review) 24.
