

Iriver Clix

By Frederic P. Miller

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - The iriver clix is a micro-sized portable media player from iriver with a 2.2-inch (55 mm), 18-bit (262,144 colors) QVGA (320 x 240) TFT LCD screen covering most of its faceplate. The player is navigated by four buttons embedded on its sides, and this innovation is called a 'D Click' system. There are also minimal-sized buttons on the sides for power, button lock, volume, and a 'Smart Key' for custom purposes. The clix supports audio formats of MP3, WMA (including protected WMA), and Ogg Vorbis; the MPEG-4 SP video format (other formats are converted with included software), the Unicode text format, and Flash Lite games and animation. The clix also includes a built-in FM tuner and recorder, a microphone and an alarm clock. The iriver clix was first known as the iriver U10, and was available in Korea in capacities of 512MB and 1GB. In May 2006, it was renamed as the clix and released in the US in May 2006 in 1GB and 2GB capacities, and a 4GB was released in November 2006. 104 pp. Englisch.
