

Wtf?: What's the Future and Why It's Up to Us (Hardback)

By Tim O'Reilly

HarperBusiness, 2017. Hardback. Condition: New. Language: English . Brand New Book. WTF? can be an expression of amazement or an expression of dismay. In today's economy, we have far too much dismay along with our amazement, and technology bears some of the blame. In this combination of memoir, business strategy guide, and call to action, Tim O'Reilly, Silicon Valley's leading intellectual and the founder of O'Reilly Media, explores the upside and the potential downsides of today's WTF? technologies. What is the future when an increasing number of jobs can be performed by intelligent machines instead of people, or done only by people in partnership with those machines? What happens to our consumer-based societies--to workers and to the companies that depend on their purchasing power? Is income inequality and unemployment an inevitable consequence of technological advancement, or are there paths to a better future? What will happen to business when technology-enabled networks and marketplaces are better at deploying talent than traditional companies? How should companies organize themselves to take advantage of these new tools? What's the future of education when on-demand learning outperforms traditional institutions? How can individuals continue to adapt and retrain? Will...

Reviews

This is the very best publication we have read through right up until now. It is one of the most incredible books we have read through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

A very amazing publication with perfect and lucid information. We have read through and that I am certain that I will plan to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).
