It focuses on the practical application of computers and the internet to the everyday tasks of teaching and learning. Integrating Technology was written for teachers, from elementary through university grades, who want to use technology in their teaching. It is a practical, hands-on, how-to guide that is based on the authors' decades of work helping teachers to incorporate computers and the Internet into their work. It was designed for beginners who are just getting started and need ideas and support to move them along, as well as experienced users who need a handbook of concrete strategies and instructions for taking the next step. The book also makes an ideal resource for teachers-in-training. 259 pp. Englisch.
