Did Israel start the Six-Day War? Is home demolition prohibited collective punishment? Does Israel practice apartheid? You can read the truth about these and other controversies in this chapter-by-chapter critical look at Alan Dershowitz's 2003 book *The Case for Israel*, as it reexamines his attempts to disprove some of the most common and damaging accusations against Israel. His arguments are persuasive when you first read them, but they often fail to address the accusation or contain information that's just plain wrong. This book will also bring you up-to-date about realities that have changed since his book was published.
