Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This is one of the finest trading books ever written about trading. The reason is that it comes from over twenty expert traders with multiple years of trading experience. Trading as you know is extremely difficult. It is estimated that 90 of traders lose money in the markets. To help you overcome this statistic, these traders give their ideas on trading with some of the best trading methods developed through their long time experience. Perhaps with these trading methods you may then have the conviction and the discipline to pull the trigger to buy and sell profitably. The traders in this book have through experience have the right attitude and many employ a combination technical analysis principles and many formula strategies to be successful. You can develop these also. Trading is one of the best ways to make money if you treat it as a business. The purpose of this book is to give you the best methods so that you can implement them in your own trading style and make it a business. I wish to express my appreciation to all the writers in this book who made the book possible. They have spent many hours of their time and hard work in writing their section of the book and the putting together their video presentation for the online expo.
