Temple Lodge Publishing. Paperback. Book Condition: new. BRAND NEW, Mozart: His Musical Style and His Role in the Development of Human Consciousness, Brien Masters, On being introduced to the concept of evolving human consciousness, Brien Masters discovered that one could gain insight into the phenomenon by examining the musical styles of different composers. The former perspective is a comment on the significance of his genius appearing in the second half of the eighteenth century. The latter has relevance, among other things, for the debate on and understanding of the so-called Mozart Effect today.' Full relevant musical scores are...
