The first in a major new series from Encyclopedia Britannica, Iran presents a balanced, sophisticated examination of Iran's social, cultural, and political landscape, past and present. From the constitutional revolution to the hostage crisis to weapons of mass destruction, this thorough guide provides the necessary background to comprehend all the important, ongoing issues surrounding this enigmatic country. Information on such leaders as Cyrus the Great and Nobel Peace Prize winner Shirin Ebadi, as well as on historical events like the Iran-Contra Affair and the Iran-Iraq War, place current developments into the broader context of world history, the Muslim world, the War on Terror, and the push for democratic reform in the Middle East. Every concise entry—from Afghanistan and Ayatollah Khomeini to Shariah law and the Shah—promotes the deeper understanding of issues and events that only Encyclopedia Britannica can provide. Since 1768, Encyclopedia Britannica has been...
