iUniverse, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.A generational cultural biography of the road taken, not chosen . Our parents sped along this road, ignorant of the broken bridge ahead. They fled the golden glow of farmutopia, entered the silver shadow of Pandora s Shop, birthed us among mechanical and electrical toys-and now we wander in this great white out, a white blindness which we are passing onto our children who are our green hope. History will not absolve us unless we change, because we know what we do. There is a way to wheel our massive cultural inertia around, and when we leave this planet in guilt or innocence, we pass to our children the greatest challenge-to save our planet, to save its life, to save themselves. While chronologically clear and analogically appealing, don t let the style fool you-I promise a raucous, ironic, sardonic, sarcastic, rollicking ride with flashbacks and fast-forwards that might spin out of control. Hang on. Dr. Gary Kirby, a Renaissance PhD out of Northwestern, describes his eight books on as waking dreams with a pleasure and a point. If this point penetrates, there is hope to harmonize high tech with a clean green earth and a true blue sky. To achieve this end, Gary started , and invites you to join.
