Steinhardt and Turok s proposed ekpyrotic universe model fits the Genesis account! The implications are profound. The book Why the Universe Bothers to Exist: Theistic Determinism, Evidences and Implications by David V. McCorkle, PhD. is based upon this observation. It explains the likely location and physics of heaven. It proposes that we have heavenly avatars (biblical spirit bodies) close by, but through a fourth spatial dimension. Baby Brady with simulated spirit body. This book proposes answers to many other questions that theists have pondered. What happened to the Garden of Eden? Might it still exist? If so, where? How could information of our personal identity be preserved after our physical death? Why will redeemed humans need to be resurrected if they are already in heaven? Why will a new heaven eventually be needed? Numerous other concepts are also dealt with, such as the following. In consideration of Heisenberg uncertainty, what maintains order in the universe? Do natural laws determine outcomes, or does the consistency of outcomes determine the laws? What factor determines...
