

Butterfly Defect: How Globalization Creates Systemic Risks, and What to Do about it : How Globalization Creates Systemic Risks, and What to Do about it

By Ian;Mariathan Goldin

Princeton Univers. Press, 2014. Gebundene Ausgabe. Condition: Neu. Neu Neuware, Importqualität, auf Lager, Versand per Büchersendung - Global hyperconnectivity and increased system integration have led to vast benefits, including worldwide growth in incomes, education, innovation, and technology. But rapid globalization has also created concerns because the repercussions of local events now cascade over national borders and the fallout of financial meltdowns and environmental disasters affects everyone. The Butterfly Defect addresses the widening gap between systemic risks and their effective management. It shows how the new dynamics of turbo-charged globalization has the potential and power to destabilize our societies. Drawing on the latest insights from a wide variety of disciplines, Ian Goldin and Mike Mariathan provide practical guidance for how governments, businesses, and individuals can better manage risk in our contemporary world. The Butterfly Defect shows that mitigating uncertainty and systemic risk in an interconnected world is an essential task for our future. 296 pp. Englisch.
