The testing professional needs to learn incrementally not only the application functionalities; the latest trends towards improving the testing process incrementally and also to learn the applications relevant technology; is essential. Timely these updates bring them their bread and butter also to survive in the IT industry. As per the current Testing practices trend; most of the IT organizations or departments they are following the Test Maturity Models integration TMMi practices to control the products or projects defects and also to bring the process improvements towards SDLC and Test life cycle. Within my 25 plus years of global IT experience, I was involved for 15 plus years in testing profession; I could use these practices in many projects to bring out the quality products delivery to the customers. Some of the benefits are tangible to the customers. I also found in my past projects globally at different locations with different customers; many people could not follow the process steps unless somebody denote an example to them either by a proof of concept activity or implemented in their projects. This experience...
