Excerpt from The Romance of Modern Geology: Describing in Simple but Exact Language the Making of the Earth With Some Account of Prehistoric Animal Life Holland. The North Sea was once dry land. But the sea encroached on it from the north, and the Atlantic Ocean battered a way through on the south, till the English Channel was bored through into the shallow waters of the newly-formed North Sea, and the lands that had once been part of Europe became these sceptred isles set in the silver sea. This is not all the story. What the sea takes away it gives again. Sir Thomas Holdich is our authority for saying that on some parts of the Pacific coast of America you may at some points see on the one hand dry land which by the shells found on it shows that the sea once ?owed over it; while side by side with this raised land you may sail a boat over forests now sunk beneath the sea. The loss of bits and corners of England is serious so serious that a Royal Commission...
