

## International Business & Foreign Direct Investment

By Helmy, Ahmed

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Case Study on Egypt | The study of FDI is considered to be one of the most important studies for any country as the Economic Growth and Prosperity of any country's Economy are much related to the magnitude of the FDI inflows to that specific country. The main purpose of the study conducted in this book is to determine the factors affecting FDI inflows to any country in general and then applied to Egypt as the country of interest in this book. The book classified FDI determinants into Primary and Secondary factors affecting the inflows of FDI throughout literature comparison matrix and the development of eight alternative statistical models and empirically choosing the best model between them by using Time Series Analysis. Investors, Undergraduate Students, Post Graduate Students, Researchers, and Anybody interested in International Business and International Business Forms will find this book very useful through the valuable information and important economic data included in this particular book. Furthermore, this book can serve as an important guidance for those who are interested in writing their academic research papers for the first time because of its simplicity and well organized conceptual structure. |...
