Bibliogov, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.For a successful response to a hazardous material accident, first responders need hazardous materials information quickly, completely, accurately, and in an easily understood format. E-Plan s Online Tier II Reporting System is a secure, internet accessible repository of facility and hazardous material information. The system provides critical chemical information at the scene and is in use in many communities nationwide. The two main goals of this project are: 1) To increase the number of facilities submitting the Tier II reports directly into E-plan in order to reduce the resources required for data entry, manipulating electronic files, and calling facilities for corrections and clarifications. 2) To reduce the amount of time needed to make the complete Tier II inventory available to first responders.
