Mundania Press LLC, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Nyla has problems. What happens when part of the planet you are on is alive, sentient, and you re killing it? Nyla--a g-e, or genetically engineered individual-- takes this concern to the born humans. But Nyla is property, tied to a specific planet, and forever doing someone else s business, and no one is interested in listening. Born human colonists gave up everything and gambled their lives and freedom to make the colony a success; they don t believe Nyla, nor does the head of the planet, her lover. If Nyla is right, they ll be no better off than she is: for the born humans, paying back the InterGalactic Mining Company would make indentured servants of them and their families for generations. Nyla has problems and she s on her own. She only hopes she s smart enough and good enough to save them all.
