Are you reaching your potential as a leader? How would your leadership style change if you had God in the center of your life? If you let Him guide you towards being a more effective leader, how much of a difference would it make? The qualities of a strong leader are given to us in the Bible. God has shown us the path to fulfilling our potential. Do we ignore Him and fall prey to the ways of the world or do we follow His teachings and positively influence all of the people that we associate with? The choice is yours. This book is written from the perspective of a manager who was trying to fit into corporate America. Tom took on the same traits as the people that he reported to. He felt that the way to succeed was to learn from those that had succeeded before him. It took 20 years and almost two marriages for him to learn where to put his priorities. Once he refocused his life to God, it has shown through in his style of leadership. Today, he stays true to his faith in God and does not worry about what others think is the only way to lead a team. He knows the one true way.
