Detective Leonard Harris moves to Springfield, Missouri, a midsize Midwestern city, and gets embroiled in a rash of felony crimes. When Assistant District Attorney Elliott Hobson is shot to death on the street, panic ensues. Witnesses say a white Ford Crown Victoria pulled up and the driver, dressed in a tan police officer s uniform, exited the car wearing a wide brimmed Texas Ranger styled hat and sunglasses. He drew a revolver and cold-bloodedly fired twice into Hobson s chest. The list of suspects is endless and a theory quickly emerges that he was assassinated as a revenge killing to leave police concerned for other public officials. The investigation hits a brick wall, but when others connected with the district attorney s office are murdered, including a judge, rumors of a hit list persist. The murders get nationwide attention when the FBI classifies the murderer as a serial killer. Springfield s lead investigator, who inadvertently used the phrase The Springfield Murders to describe the killings, is murdered along with his wife in their home late at night. They think they have a thrill killer on their hands, but a jogger killed on a hiking path takes the investigation in a new direction.
