I participated in the activities of GRIN and Nairaland over a period of time and learned their interaction model. Subsequently, I created two e-communities with the intention of putting to practice few things I have observed and learned as a member of existing e-communities. Some guidelines were suggested towards creating a successful online community. 12 pp. Englisch.

*A brand new ebook with a brand new standpoint. I have read through and that I am certain that I am going to go through again once more in the future. It has been developed in a remarkably simple way in fact it is merely right after I finished reading through this book in which basically modified me, modify the way in my opinion.*
