Reviews

It is just one of my personal favorite books. I was able to comprehend every little thing out of this published e-publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

Hopewell, United Kingdom, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. A psychological view of ourselves and our world. This is a revised version of the classic book by Bruno Louise Huber, first issued as *Man and His World* in 1978. A thorough understanding of the houses is essential for psychological analysis of the horoscope because the houses establish the actual framework of individual personality and relationship to the environment. Unlike earlier approaches, the twelve houses are considered not as a classic space structure but as dynamic developmental tendencies that result from the combination of crosses (modes) and temperaments (elements). This book shows how the houses relate to ourselves and to our life experience in the world. Of interest to the practicing astrologer, psychological consultant and those seeking self-awareness.
