*It is just one of my personal favorite books. I was able to comprehend every little thing out of this published e-publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

But weddings are also something else. They are big business. Each year over 4 million couples in the U.S. say I do. That's a pretty impressive number, but the fact that the average amount spent on these weddings is over \$25,000 is almost unbelievable. It's also something else, absolutely absurd. There is absolute no plausible reason for spending that kind of money on a wedding even if you (or your dad) can afford to. Why would you do that considering the fact that it is completely possible to have a lovely, tasteful wedding for a fraction of the cost? Yes, it's true. You can get married in style without going into debt, robbing your parents retirement fund or starting your married life in a state of poverty (or at the very least, a stretched budget). Within the pages of this book you will find suggestions for cutting the costs of getting married without skimping on beauty and elegance.
